

FUCK HIM!!!

he's gonna get his little pawprints everywhere and she'll show him the door

She'd better!!!! ♀ WAAA

but wait, i guess i never...is he a misogynist? i mean, i trust you, but i feel like i missed something.

Not in any kind of dangerous or especially shitty way, he just expects women to care about him inherently. Like he puts on this whole thing about being misunderstood and lonely and bullshit. Which is more annoying than anything in my opinion.

fair

i do think. sometimes. to myself. that if you are talking to much about being lonely. you can't be that lonely, right? because someone's still hearing you talk.

Yeah. And you're still kinda hoping that it'll change so you're talking about it hoping that someone will pay attention.

But Zeke!!! He and his sister are genuinely pretty close. Which counts for somethin I guess.

yeah. they like each other a lot. and when they're together i can kind of see how they make up for each other, you know? she's kind of laid-back, he's kind of intense...

Though maybe that's a bit reductive. → OOPS

sorry. but it's interesting. you never really see them on their own.
